"I have several solfeggio CDs and this is one of the easiest to listen to. It is interesting enough to keep you from falling asleep with headphones and un-intrusive as background music. *Well done!" Thank You!" P. McCloud*

"I'm not sure what happened but after listening to your Angelic album while working (computer programmer) my mind was more clear than ever. I had a holy shit moment like I was free from brain fog or something that was holding my mind back. I had an amazing productive day yesterday!"
